### 5. Fire-fighting measures

General information:

Not applicable. This product is non-combustible. Also there is no special risk by its preparation or the comprised elements.

Firefighting protective equipment:

Not applicable

Exposure hazards:

Do not release material into water drains.

### 6. Accidental release measures

Personal precautions:

Avoid contact with skin, eyes and clothing

Environmental precautions:

Prevent contamination of surface water.

Methods of cleaning:

Add absorbent sand to recover liquified material. Keep children away from clean up operations. Dispose to a place authorized to accept builder's waste.

### 7. Handling and storage

Notes for safe handling:

When handling containers due regard should be paid to Manual Handling Operations Regulations. Use only safety approved handling equipment.

Risks at preparation:

None if handles according to instructions.

Notes for fire and explosion protection:

Non-combustible

Storage space and vessel requirements:

Store in a cool, dry place away from direct sunlight.

Information for combined storage:

All DMC products may be stored together, or in a combined warehouse for dry mortar products. Do not place liquid components on top of dry mortar products.

Additional designation of the storage requirements:

Do not store below 5 degree Centigrade

Storage classifications:

TRGS510 Class 12, non combustible liquid material

### 8. Exposure controls/personal protection

Technical protective measures:

No special measures required

Limits of exposure:

not applicable

Components which have to be monitored according to limits based on the workplace:

Not applicable

Additional notes according to limits:

Not applicable

#### Personal protection

Measures of safety and hygiene:

Observe all standard industrial hygiene measures

Respiratory protection:

apply in a well ventilated space

Eye protection:

Wear safety glasses with side shields to protect against eye contact.

Hand protection:

Wear suitable protective gloves in order to minimize skin contact.

Body protection:

Wear general purpose work overall to protect skin from irritation.

### 9. Physical and chemical properties

Physical state:

liquid

Appearance:

Light grey powder

Odour:

Odourless

Change in state:

Boiling point:

Not expedient; It's a mineral product
